

# Tung Nguyen

## CAREER GOAL

While I was learning User Experience Design (UXD), I found my passion for Software Development.

My near future goal is to work and contribute values for society while working & growing further as an aspiring Software Developer, especially with deep understanding and practical skills in accessibility to support all target users.

## SKILLS

Frontend: HTML, CSS, SCSS with BEM, ReactJS, Redux, Material UI, Jest

Backend: REST API, ExpressJS, NodeJS, Mongoose, Jest

Database: PostgreSQL, MongoDB, MySQL

UX Foundation: UX, User-centered Design, Accessibility

DevOps, Deployment: CI/CD, Jest

Other soft skills: Code review, Pair programming, Teamwork, Agile Methodologies, Effective Communication, Presentation
